John

and the other side of the mountain!

But the other side of the mountain is a different world.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.

It is a world of its own, a world of its own.
